

71. (New Claim) The method of claim 57, wherein said storage device includes a network having a plurality of transmitter stations.

72. (New Claim) The method of claim 71, further comprising the steps of:
transmitting said intermediate generation set from a first of said plurality of transmitter stations; and
transmitting said program instruction set from a second of said plurality of transmitter stations.

73. (New Claim) The method of claim 57, wherein said storage device is located at an intermediate transmitter station, said method further comprising the step of transmitting said first signal and at least one of said program instruction set and a command generated in accordance with said intermediate generation set.

74. (New Claim) The method of claim 57, wherein said storage device is located at an ultimate receiver station.--

REMARKS

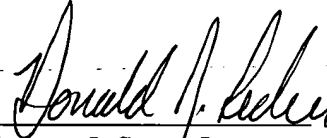

In consonance with the agreement between Applicants and the Office regarding the co-pending U.S. patent applications related to this application, Applicants hereby join the claims from related App. Ser. No. 08/478,107, Atty. Dkt. No. 05634.0309, into the instant application. Correspondingly, App. Ser. No. 08/478,107 has been abandoned or the claims hereinabove have been cancelled from App. Ser. No. 08/478,107. Presently added claims 37-74 correspond to the claims from Application Serial No. 08/478,107 as follows:
